

Federal Budget Challenge

Due Date: Check whiteboard

Points: 25

Go to www.federalbudgetchallenge.org/pages/overview . Follow the instructions to complete the challenge. Note that there are research options, pros, and cons connected to the choices that you are asked to make. When you finish, make sure to print the summary page. On the other side of the paper reflect on the choices you made (cut, add, status quo) and why you made them. You might want to jot down some notes as you go through the simulation as you may not be able to go back to review them as easily. Your reflection should be typed and at least 250 words with the word count noted at the bottom.
